

**REMARKS**

Claims 1–21 are pending in the present application.

Claims 4, 6–7, 11 and 13–14 were objected to as being dependent upon a rejected base claim, but were indicated to be allowable if rewritten in independent form including all limitations of the base claim and any intervening claims. In response, claims 4, 6 11 and 13 have been rewritten in independent form; claims 7 and 14 depend from claims 6 and 13, respectively.

Claims 1, 8 and 15–18 were amended for clarity.

Claim 21 was added.

Reconsideration of the claims is respectfully requested.

**35 U.S.C. § 103 (Obviousness)**

Claims 1–3, 5, 8–10, 12, and 15–20 were rejected under 35 U.S.C. § 103(a) as being unpatentable over U.S. Patent No. 5,608,360 to *Driscoll* in view of U.S. Patent No. 6,426,683 to *Gu et al.* This rejection is respectfully traversed.

Independent claims 1, 8 and 15 each recite at least one inductance coupled to a port of the SAW resonator, connected and sized to reduce a stray capacitance seen at the port within an equivalent circuit for the SAW resonator at a selected frequency such that any remaining stray capacitance is less than a motional capacitance within the equivalent circuit for the SAW resonator. Such a feature is not found in the cited references, taken alone or in combination.

Therefore, the rejection of claims 1–3, 5, 8–10, 12 and 15–20 under 35 U.S.C. § 103 has been overcome.

**SUMMARY**

If any issues arise, or if the Examiner has any suggestions for expediting allowance of this Application, the Applicant respectfully invites the Examiner to contact the undersigned at the telephone number indicated below or at *dvenglarik@davismunck.com*.

The Commissioner is hereby authorized to charge any additional fees connected with this communication or credit any overpayment to Deposit Account No. 50-0208.

Respectfully submitted,

DAVIS MUNCK, P.C.
